Venture Monitor

Our Emerging Companies & Venture Capital group is focused on strengthening the innovation ecosystem. To advance that commitment, we work with stakeholders that make continuous development of the VC industry a top priority. We have partnered with [PitchBook](#) and [National Venture Capital Association \(NVCA\)](#) to produce the PitchBook-NVCA Venture Monitor, which examines venture capital activity in the entrepreneurial ecosystem and provides a comprehensive look at fundraising, investments, exits and other relevant quarterly industry data.

Download the Venture Monitor report to read our unique insights into the current landscape.

## 2019 Q2 Venture Monitor Report

The 2Q 2019 report displays the data behind the largest quarterly exit value ever. In addition to the record IPO value, there has been a significantly

## 2019 Q1 Venture Monitor Report

After the largest year on record for venture investment in 2018, it was safe to wonder if 2019 would start off slower than the heady levels reached last year. Any thoughts of a venture slowdown were quickly dashed by the first quarter of the new year, as 2019 picked up right where 2018 left off.

## 2018 Q4 Venture Monitor: VC Industry Analysis Webinar

The 4Q 2018 PitchBook-National Venture Capital Association (NVCA) Venture Monitor highlights that nearly \$131 billion was invested in 2018 across 8,948 deals into US venture-backed companies. Traditional early stage investing continues at a healthy clip while we continue to see the emergence of what appears to be a new category of startup investing – mega expansion rounds.

Q3 2018

## 10.2018 - 2018 Q3 Venture Monitor Report

The trend of high concentration of capital into fewer, larger investments has solidified into the status quo for the US VC ecosystem. 2018 has already exceeded \$30B in venture investments for the fifth consecutive year. To round out the venture cycle, a healthier IPO market is providing much-needed returns to LPs and capital for reinvestment in VC.

Q1 2018

## 04.2018 - 2018 Q1 Venture Monitor Report

After an active 2017 for investment in U.S. venture-backed companies, momentum in capital deployed continued in the first quarter of 2018 while the pace of companies receiving capital continued to decelerate. A total of 1,683 venture-backed companies raised \$28.2 billion in funding during 1Q 2018, marking the fourth consecutive quarter of more than \$20 billion deployed to venture-backed companies and the highest amount of capital deployed in a single quarter since at least 2006.

Q4 2017

## 01.2018 - 2017 Q4 Venture Monitor Report

The fourth quarter of 2017 bookended the year as the third consecutive quarter with more than \$20 billion deployed into U.S. venture backed companies, and marked the close of a strong year of investment that surpassed \$80 billion annually for the first time since the dot-com era. Investors deployed \$84.2 billion into 1,772 companies in 4Q, the fewest since 4Q 2011, bringing the annual total to 7,783 and marking the lowest level since 2012.
