

Click on the state name below to see the related use of videoconferencing technology.

This list tracks the actual use of videoconferencing technology by state and federal courts in lieu of a traditional courtroom setting. It lists the videoconferencing technology used by each state, if known, and provides a link to the source documenting the use. The list is updated periodically and subject to change to reflect each state's attempts to adapt to conditions related to the COVID-19 pandemic.
