

As noted in this [more-detailed Client Update](#), the White House recently issued its most extensive policy directive yet concerning the development and use of artificial intelligence through a 100-plus-page Executive Order titled "Executive Order on the Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence" and accompanying "Fact Sheet" summary.

Following in the footsteps of last year's Blueprint for AI Bill of Rights and updates to the National Artificial Intelligence Research and Development Strategic Plan published earlier this year, the EO represents the most significant step yet from the Biden Administration regarding AI. Like these previous efforts, the EO acknowledges both the potential and the challenges associated with AI while setting a policy framework aimed

at the safe and responsible use of the technology, with implications for a wide variety of companies.
